

Gord Peters Bio

- Married to Sandie in December 1970.
- Two children, Sarah, born 1974 and Corey, born 1976. One grandchild, Cole, born 1993.
- Presently live in Brights Grove, Ontario. Employed by NOVA Chemicals, Corunna Petrochemical Site as Occupational Safety and Emergency Preparedness Specialist.
- After graduating, I was employed at DuPont Canada Maitland Works for four years. In June 1971, I left DuPont and went to work for Ontario Hydro at the Bruce Heavy Water Plant and worked as a Process Operator. Sandie and I remained in Port Elgin where we had our children. In November 1980, NOVA Chemicals in Red Deer, Alberta offered me a position as a Process Operator. This was a new company and at the time was called Alberta Gas Ethylene Ltd. This was a very unique job experience using the team system to manage our operating lines while on shift. In September 1985, I became part of the management team and have been in this type of role for the past twenty-three years. In July, 1998 we were given an opportunity to relocate to Sarnia with NOVA Chemicals.
- While in Alberta our family was heavily involved in downhill skiing. Our children raced competitively and Sandie and I worked the races in different capacities. We thoroughly enjoyed this sport as a family. Summer was always active with biking. We appreciated the opportunity to live in a Western province and live the Alberta experience.
- Sarah, is a nurse at the Sydenham Hospital in Wallaceburg and lives with her family in Courtright, Ontario.
- Corey lives in Fort McMurray, Alberta and is employed with Suncor Energy Ltd.
- Sandie and I enjoy our pool, warm vacations, fine dining and cruising on our Harley Davidson. We are close to our grandson and seldom miss a lacrosse, hockey or soccer game.
- Looking forward to seeing the gang almost 40 years later.
